Optiserv Landing Page: Requirements Checklist

For the team member who will collect everything the developer needs to start. Send each item when ready. Anything missing will be marked "to be added" and left off the live page. Please do not invent or estimate any claim, number or testimonial.

The offer to show on the page

- Dedicated team members from $1,500 per month, with a 30-day trial to test our vetted people.
- Automation services for company projects.
- Founder: photo only, no video.
- Main message: Build your team. Not your overhead.
- Services shown: dedicated staffing experts from India and the Philippines, operational services staffing (HR, payroll, infrastructure, team management), recruitment and staffing, automation services.
- Audience: founders, CEOs, MDs, COOs, CTOs and HR heads in the UK, USA, Australia and Canada.

A. Offer and pricing (decisions needed)

- [ ] Is $1,500 per person per month, or for a full team? Does it change by role or by India vs Philippines? (Management)
- [ ] 30-day trial terms: free or paid? What happens if the client is not satisfied (free replacement or cancel with no further charge)? Write it as one plain sentence. (Management)
- [ ] What the monthly price includes: recruitment, HR and payroll, office seat, equipment, IT, account manager. (Management)
- [ ] Automation services: a starting price or "scoped per project", plus two or three real examples (client type and result). (Delivery team)

B. Founder and people

- [ ] Founder photo: clear, good light, plain or office background. JPG or PNG, high resolution. (Founder)
- [ ] Founder name, title, short bio and a 70 to 90 word first-person note. (Founder)
- [ ] Founder LinkedIn link and booking calendar link. (Founder)
- [ ] Names, photos and roles of account managers and recruiters. (HR)

C. Proof: testimonials, case studies, numbers

- [ ] Testimonials: quote, full name, job title, company, photo and written permission to publish. Must be real. (Sales)
- [ ] Case studies: client type, what they needed, team built, result with numbers. (Delivery team)
- [ ] What we have done: clients served, people placed, active team members, retention, days to shortlist, and since when. Exact figures with dates. (Management)
- [ ] Client logos we have written permission to show. (Sales)
- [ ] Any reviews (Google, Clutch, GoodFirms, Trustpilot) or certifications actually held. (Marketing)

D. Countries and offices

- [ ] Countries we operate in (delivery centres: India and Philippines) and countries our clients are from. (Management)
- [ ] Cebu office: full address, phone, team size, and which roles are delivered from there. (Operations)
- [ ] Hyderabad office: full address and map link. (Operations)
- [ ] Real photos of both offices and the team. (Operations)

E. Contact numbers and email

- [ ] WhatsApp Business number with country code. (Management)
- [ ] Virtual UK and US numbers that forward to the team, or approval to set them up. (Management)
- [ ] Cebu +63 number, only if one exists. (Operations)

- [ ] Company-domain email, for example hello@optiservconsulting.com. No personal email on the page. (Management)

F. Brand, legal and technical

- [ ] Logo files (SVG or PNG) and any fixed brand colours. (Marketing)
- [ ] Registered company name and registration number. (Legal)
- [ ] Privacy Policy, Terms, Cookie policy, NDA and IP summary, data protection summary. (Legal)
- [ ] CRM in use, booking tool, Meta Business Manager and domain verification access. (Marketing)
- [ ] Who controls optiservsolutions.com, and approval to take it down. (Management)
- [ ] One URL with ad variants, or separate pages per campaign? Keep iGaming as a named specialism, or lead with SaaS, agencies and e-commerce? (Management)

Fix before ads go live

- The current website has blank stat counters, typos, text from another product, a "10 years" claim (the company was incorporated in January 2025), and no Philippines details.
- The old sister site optiservsolutions.com shows placeholder text and another company's email. Take it down or hide it.

What happens next

1. Collect the items above and send them to the developer in one shared folder, named by section (A to F).
2. The developer starts now with layout, hero, form, tracking and cookie banner, which need none of these items.
3. Photos, quotes, numbers and legal pages are added as they arrive, and the page goes live after the founder approves it.
